[Run Report 2264 – Troppo and Kazi @ Penistone Park, Greenwood](#)

Preamble:

Due to close proximity of tonight's run our car pool was on "get your own way there mode". It was only **Rooted** and yours truly as our esteemed **GM Donka** was off snorkelling and sunning himself in the Christmas and the Cocos Islands. Monday was what we would call in Scotland "a richt dreich day", whereas in Perth it was close to a 1 in 100 years storm! Our experienced Hare **Troppo** chose the site well and we had good cover from the elements at the new changing rooms at Penistone Park. It was a Survivor brigade at the Hash tonight with only 29 brave souls turning up, most like myself kitted out to survive a real soaking!

The Run:

Stand-in **GM** tonight is none other than **C-Man** who in his inimitable fashion quickly takes command. He could not pass up the occasion of talking about the latest federal election result and was over the moon as the price of crayfish had risen by A\$3 each!

Troppo is invited to take to the crate to give us directions. Alas he and his co-opted Co-hare **Kazi** did make a valiant attempt to set the run in the afternoon but in the absence of waterproof chalk they failed!

Kazi being the current RA was in the firing line for not controlling the weather tonight but to be fair he did manage to keep the rains storms at bay at least for the duration of the Run.

Troppo advised that in lieu of a Drink Stop (not a good idea tonight] that he would put on a carton for the Members upon their return from the Run. It would be a live Hare run/walk with **Bravefart**, duly briefed by **Troppo**, leading the Running Pack and **Troppo** himself leading the Walking Pack.

A brave Running Pack of 7 Hashers took off into the howling wind following the "live" Hare **Bravefart** who was lit like a Xmas tree - just missing the fairy on his head! The rest of us, less the skiver's staying at the Van, duly followed our "live" Hare **Troppo**. The FWB consisted of the "usual suspects" - **Spud/C-Man/HardCase** with believe it or not **Gasman** keeping pace with us. New member **Edd** was also champing at our heels. It would not be a Hash without a few FT's and **Troppo** made sure he introduced a few of these together with some check holds to keep all of the Walking Pack pretty much together on the

imaginary trail - although to be fair to the Hares there were a few 4's surviving the rains storms. Close to home we had a song stop that brought the Walking Pack together. I had no spy in the camp of the Running Pack tonight so I am unable to provide any commentary on their run but I'm sure that they too were happy to come home dry!

It was 6.5Km for the Running Pack and I recorded just 4Km for the Walking pack.

Circle Up & Visitors and Returniks

Visitors:

None Tonight

Returniks:

- **Mental Disorder** - sex tourist in Cambodia
- **Arseholeo** - sex tourist in Cambodia
- **Voodoo** - been up in the Pilbara with his sidekick GDC prospecting for manganese
- **Gasman** - same as usual been working up North blowing things up!
- **Squirt** - been working in Queensland and then offshore Karratha

Covid Report:

The Covid hits keep decimating Hamersley Hash. Latest unfortunates are:-

Stir - Day 4 - a slight headache but not much energy, although that tends to be normal these days!

DAGS - I believe I copped the worst on Thurs/Friday thinking it was from our flue injections. CTM is handling it well thank goodness but only did a Covid test on Monday that was positive. We are over the worst now and just hope it doesn't drag on.

Pole Polisher - Fairing very well. Forced 7 days off work in isolation renovating a room in his house. All good now and pretty much back to normal.

General Business:

First up as usual is **Rooted** who tells us that he has just joined the OSH [Octogenarian Surviving Hasher] Club on Saturday. **Rooted** advises that he is putting on a carton for the members in recognition of this very significant milestone that he has achieved. He then proceeds with a joke for the physically challenged members to allow them to be seated. Fall guys tonight for the joke were the **JM's Shit Scraper** and **Molly Dooker** and it was something about a sex rodeo! That set **C-Man** off telling us about his unfortunate dating experience with two ladies who he was courting at the same time meeting each other when he had his arm around one of them!

C-Man has not lost his touch and has sex tourist **Arseholeo** on Ice for allowing an LBFM to wear a Hamersley shirt and then spreading her photo far and wide on social media.

Bravefart commented on the super hot jerky as part of the snacks tonight and **C-Man** reckoned it was his ploy to raise the beer sales tonight.

Troppo advises that he will be stand-in **GM** at next week's run at **DAGS** house and asks all attendees to wear tropical gear in the circle and also bring a joke or two to share. There might be Pina Coladas!

Spud advises that he has received a positive response for his idea of a Rotto in Bali revisited and that it would be on the last weekend of October 2022. **JM Shit Scraper** reckoned that he would be proceeding up to Chiang Mai after Rotto in Bali for a run with the Bunnies - hopefully there are not a few new bunnies since your last visit there! **Bravefart**, **Baron** and **Mental Disorder** also seemed to be planning to join the next Mekong Indo China run in November back in Cambodia. At this juncture **C-Man** strongly reminded everyone that they need to be back in Perth for Hamersley's 44th anniversary at the AGM Run on Monday 14 November 2022. He needed to repeat himself a couple of times for some of our slower members to appreciate the importance of 44!

Charges:

Just before raising his charge **McAffluent** [I could have called him **McEffluent** but I don't want to be end up in a defamation case like Johnny Depp!] tries to get on the good side of stand-in **GM C-Man** by buying him a "bush chook". That's an Emu Export - only drunk by "real" Hashmen!

McAffluent then charges **Voodoo** as he claims that it was one of his race of Dutchmen who were the instigators of the current infection of Monkey Pox now sweeping the globe. **McAffluent** claims that it all started with the Dutch in Spain during the 80 years war in 1548 [Scribes note: - the 80 years war was actually 1568 to 1648]. **Voodoo** claims that he was in the Pilbara! - I think that the charge may have gone over his head a bit! **Voodoo** then tries to tell a story about him

and his returning sidekick **GDC** in the Pilbara but that ended up going way over the heads of those in the circle. Talk of housekeepers did ring a bell with **C-Man** though!

Rooted made the comment that **McAffluent** should drop the K and "Money Pox" was a more fitting moniker for him!

C-Man then makes his first attempt at charging **On Sec HardCase** for being off the pace on tonight's run and allowing **Gasman** to keep up with FWB's exalted company! At this point **McAffluent** intervenes and will not hear a bad word said about his "good mate" **HardCase** and saves him by buying **C-Man** 6 - yes 6 - "bush chooks".

Spud charges **Tampax** for not plugging the Van into the changing rooms external power as he said it was not working until **Song Master ELF** plugged in his PA system and it powered up! DD **Tampax**!

C-Man must have some thirst as he has another charge against **HardCase** for directing him and **Spud** off on a FT. Another "bush chook" miraculously appears courtesy of **McAffluent**.

Mention was made of the new Hoodies and **Coops** asks when **Haberdash Precious** is going to order Teal coloured ones!

WOW:

Whoever claims that **RA Kazi** was slow off the mark have got it wrong as he too tries to make a trumped up charge against **HardCase**, even though we are on WOW, and **McAffluent** produces the goods once again - must have been a good horse that he backed!

Spud, never one to miss a trick, then gets on the band wagon and tries to charge **HardCase** and does not need to expand upon his charge before another free beer comes his way from you guessed it - **McAffluent**.

RA Kazi says that he and the Hare **Troppo** did make an effort to mark the trail but were defeated by the storms in the afternoon. He thanks **Bravefart** for doing the "live" Hare for the Running pack and **Troppo** for the Walking pack.

Mental Disorder nominates his travelling sex tourist companion, **Arseholeo**, for an escapade with an LBFM in the storm forgetting where his hotel was and paying a Tuk Tuk driver for a 100 metre ride to it!

Arseholeo repays the favour by nominating his sex tourist mate **Mental Disorder** with his own story about the trip and him getting in the poo with his missus.

Gasman nominates **Mental Disorder** for being dumber than **Arseholeo** if that was possible!

C-Man rightly states that in Hash there should be no tales on tour and that's why this Rag will self destruct after you have read it!

The "bush chooks" have done their job and **C-Man** is on a roll and nominates **HardCase** for the same thing that he charged him with - dropping his walking pace and allowing **Gasman** to keep up with the FWB brigade.

C-Man then nominates **Short Horn** for blinding everyone with his 2,000 lumens head torch and not removing his hat during the Song Stop on the Walkers trail but continuing to have a piss instead!

RA Kazi as is is won't is not swayed by such frivolous charges and calls in the WIW [Wanker In Waiting] **McAffluent** and anoints him as this week's WOW. The incumbent WOW **Flasher** is MIA tonight so another WOW shirt is produced and it fits **McAffluent** like a glove! DD to him.

Run Report:

Popeye is asked for his report on the Runners trail. It was shit weather but we didn't get wet says he [**RA Kazi** should have got himself more kudos from that] and it was a decent trail well led by "live" Hare **Bravefart**. He awards the run a score of 8 / 10.

Rooted is called upon to do a similar report on the Walkers trail. **Rooted** reckoned it was a brilliant walk and gives it a score of 11 / 10 [it's obvious that it was not Maths that he used to teach!].

Next Week's Run:

Rooted & DAGS at **DAGS** hacienda, 72, Warburton Ave, Padbury. [Park opposite in the shopping centre car park].

Next week's Van driver:

DV8

Hash Lunch:

Mel Adjusted is currently working up North so no information on the next Hash lunch yet but watch this space though

Hares Act:

Troppo thanks his Co-hare **Kazi** and Uber Eats man **MauSei**.

He sings a song that he wrote a few years ago about a Hash with no Beer. A good effort well done **Troppo**. **C-Man** is happy too as somehow the song's lyrics encouraged his benefactor tonight, **McAffluent**, to produce another "bush chook" for him.

Song:

Gasman is given the honour of leading the members into circle closing song and surprises us all - well me at least - by choosing H.A.M.E.R.S.L.E.Y.
